

## ISA—International Schools' Assessment

Each year in March, our grades 3-8 students participate in standardized tests for international schools (ISA). The test results enable us to compare ourselves to international schools around the world.

Our 2018 results were very positive across all subtests (Mathematics, Reading, Writing).

Overall ISSH scores are considerably higher than the ISA world average scores.

The PISA results with participation of 15 year olds in national systems across the globe are directly comparable to the ISA points scale.

Our 8th grade students at 13-14 years old markedly outscore 15 year old PISA participants.

## IB Diploma Programme

Our IB Diploma students sit their exams in May. Since the introduction of the programme in 2013, we have been able to raise the results year by year.

Unlike other schools that channel students into different programmes like the British A-levels or the US Advanced Placement courses, ISSH is a non-selective programme. We believe that given the right support all students can achieve success in the Diploma Programme.

The results below include the scores of all students, including EAL students who joined us for the DP programme only, as well as students with special educational needs.

The 2018 ISSH pass rate was at 89,65 %.
